ABOUT CLOCKTOS INFOTECH

For nearly two decades, Clocktos Infotech has stood as a pioneer in educational technology, striving to revolutionize the education sector with cutting-edge solutions. At the heart of our success is our flagship product, Clocktos ERP, which has seamlessly integrated into more than 450 educational institutions, reshaping the landscape of operational management.

Clocktos ERP Highlights

Clocktos ERP boasts a comprehensive suite of 21 modules, offering a robust and versatile solution to educational institutions. With an impressive array of 900 reports, our ERP system is designed with user-friendliness in mind, empowering educational institutions to thrive in the digital age. From administrative tasks to academic management, Clocktos ERP is a holistic solution for enhancing operational efficiency.

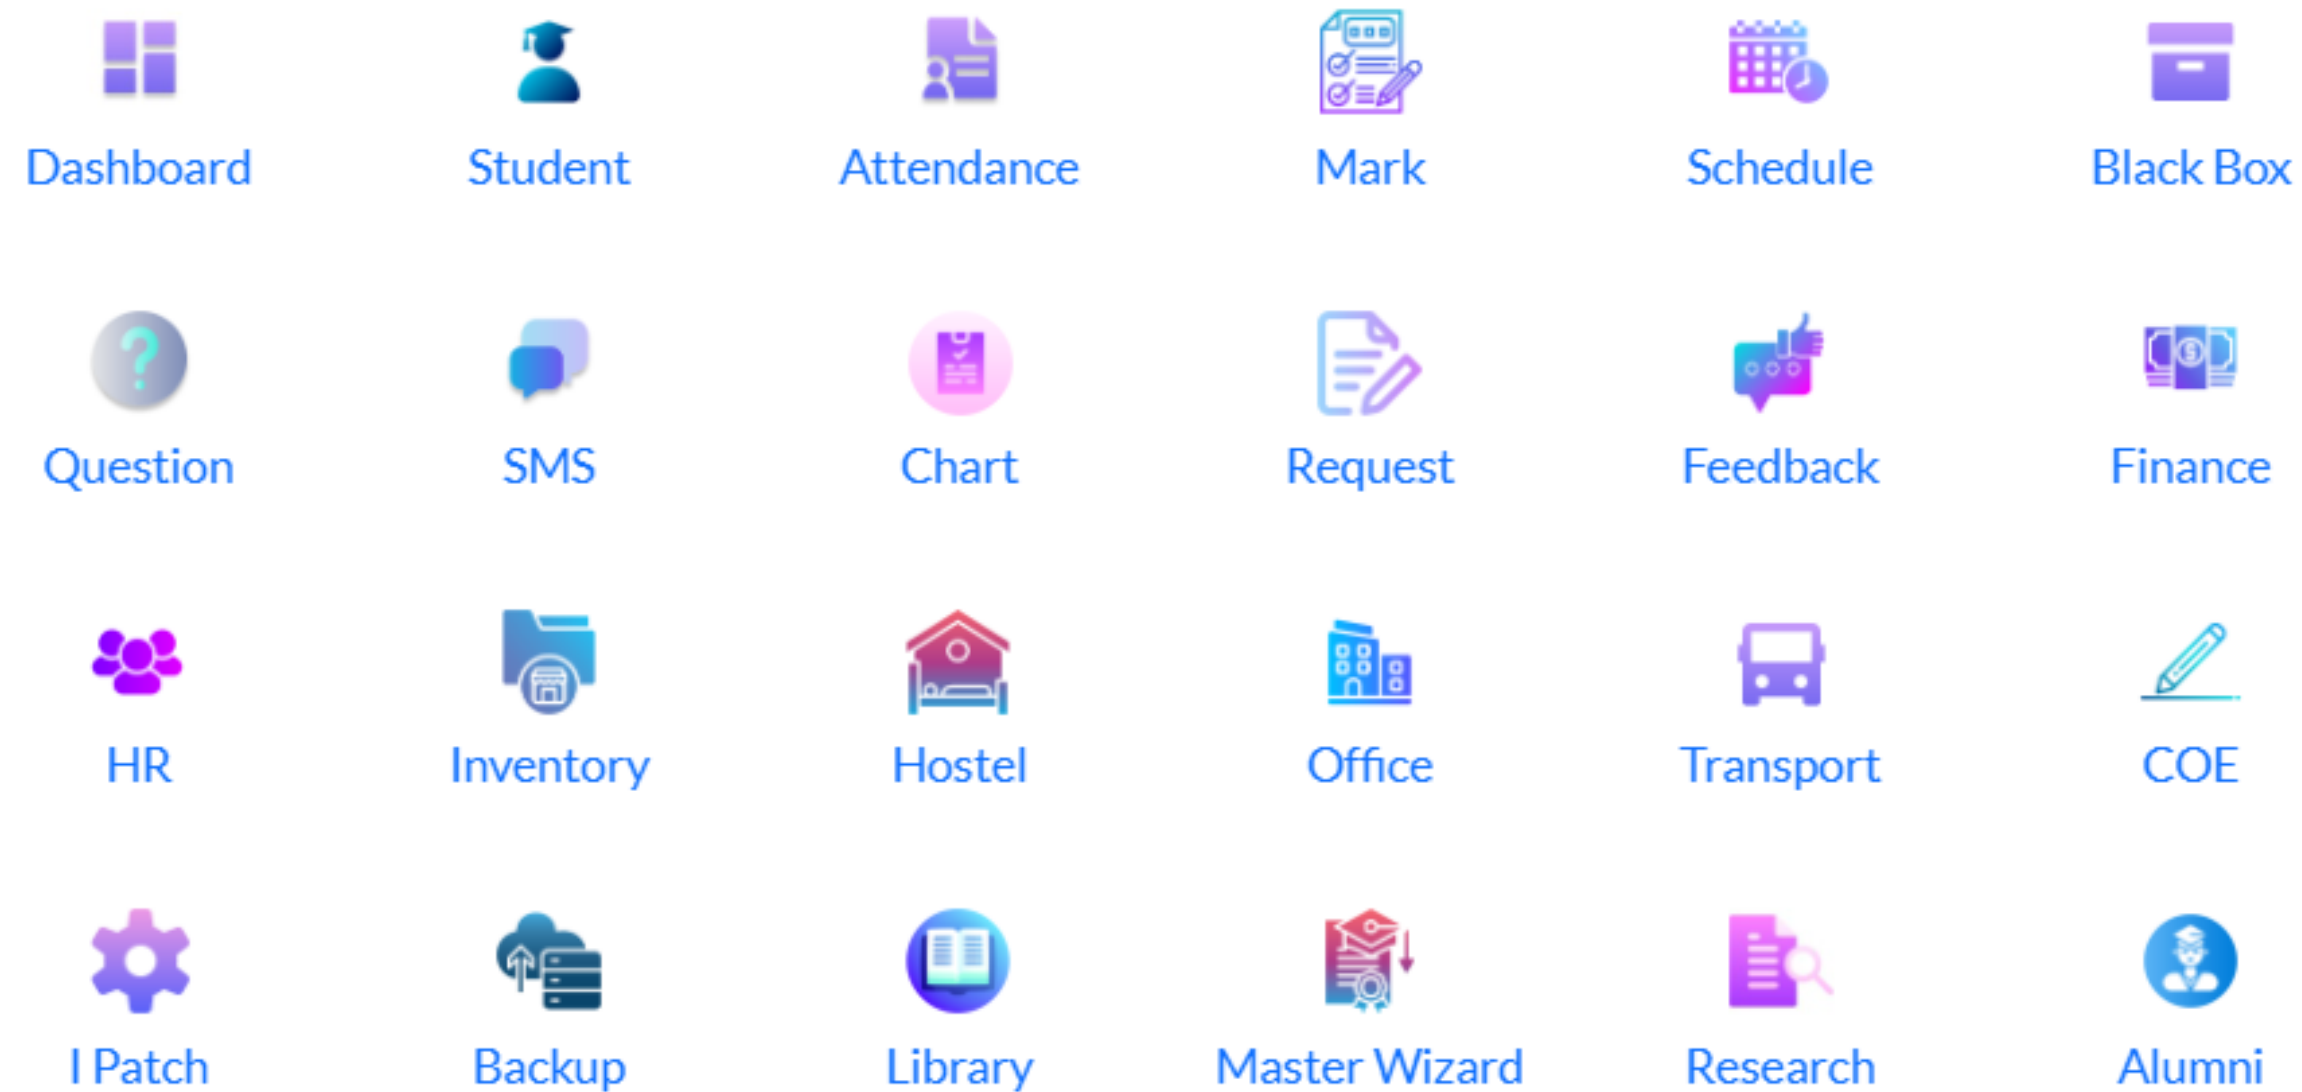

Customer-Centric Approach

Our journey has been defined by an unwavering commitment to excellence, user satisfaction, and unparalleled support. What sets us apart is our focus on the success of our clients. We take pride in sharing that over 90% of our sales stem from satisfied customer references, underlining the trust and confidence our clients place in us.

Macro-Level Support System

The macro-level support system we provide is the backbone of our success. We ensure our clients experience success at every step of their journey with Clocktos Infotech. From implementation to ongoing support, our commitment is to see our clients thrive.

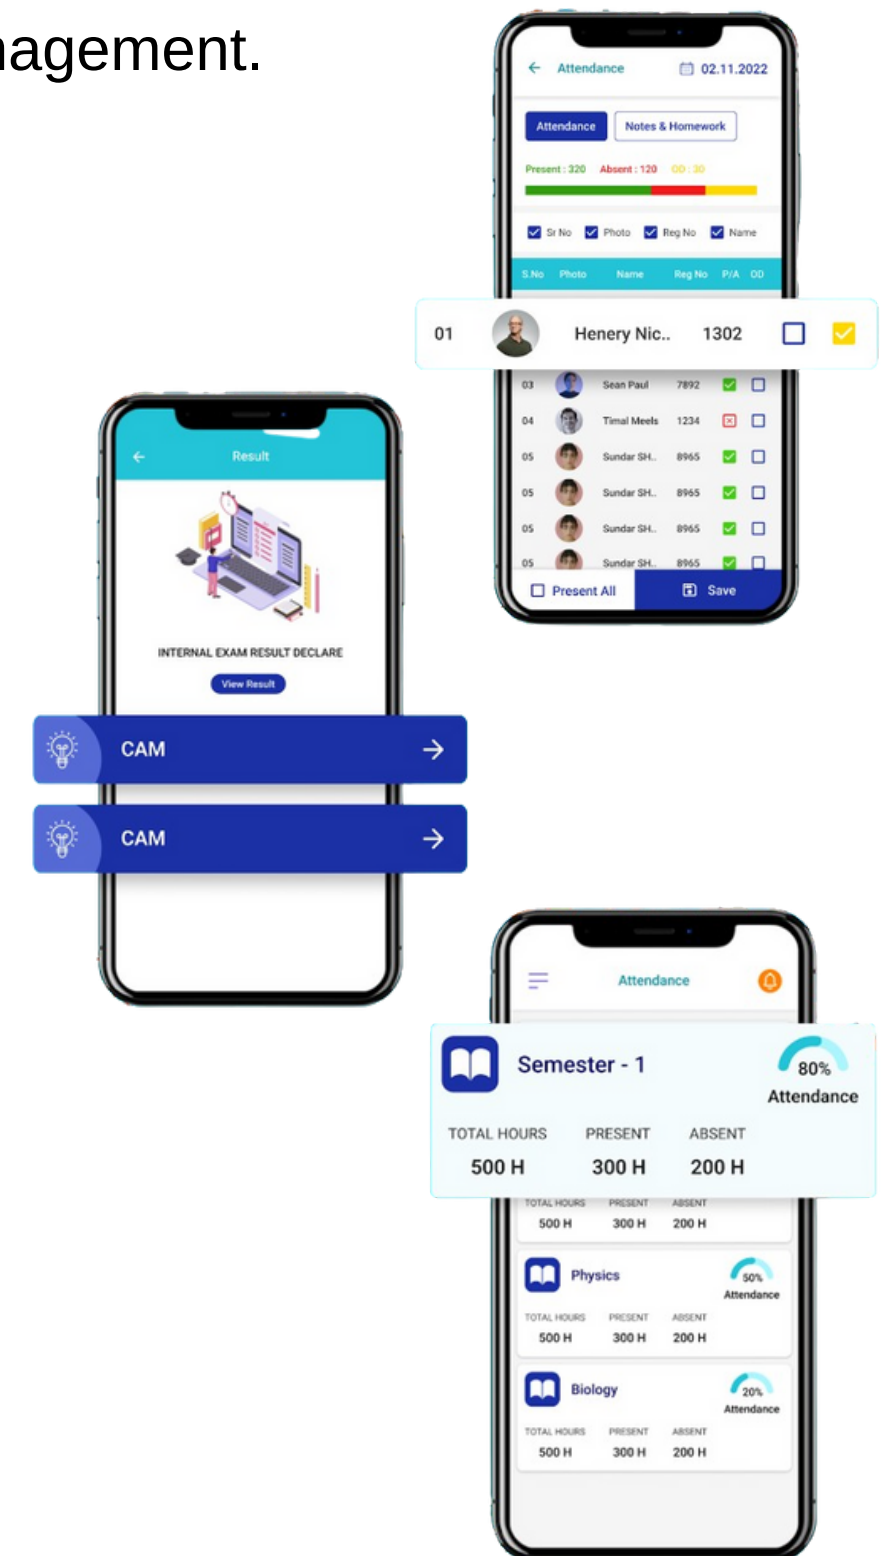

KEY MODULES

Clocktos ERP's comprehensive suite of modules ensures that educational institutions have a robust and integrated system to manage their operations efficiently. From administrative tasks to academic planning, Clocktos ERP provides a holistic solution for educational excellence.

- **Student Information Management:** Centralized database for student details, academic history, and attendance records.
- **Admissions Management:** Streamlined process for online applications, tracking, and document management.
- **Human Resource Management:** Employee profiles, attendance tracking, and payroll management.

- **Inventory Management:** Stock tracking, purchase orders, and vendor management.
- **Examination Management:** Exam scheduling, question bank management, and result processing.
- **Library Management:** Cataloging of books, check-in and check-out tracking, and late fee management.
- **Transport Management:** Route planning, vehicle tracking, and transport fee management.
- **Accounting & Financial Management:** Budgeting, expense tracking, and financial reporting.
- **Hostel Management:** Room allocation, mess management, and attendance tracking.
- **Office Management:** Document management, task scheduling, and communication logs.
- **Dashboards:** Real-time data visualization with customizable dashboards and KPIs.
- **Enquiry Management:** Tracking and managing inquiries, follow-up, and status monitoring.
- **Communication Management:** Centralized communication tracking, notifications, and alerts.
- **Feedback Management:** Surveys, feedback collection, and basic analysis.
- **Fees Collection Management:** Fee structure setup, payment tracking, and reminders.
- **Learning Resources Management:** Curriculum planning, resource allocation, and integration with digital learning.

CLOCKTOS ERP HIGHLIGHTS

01

Choice-Based Credit System

Clocktos ERP's CBCS module facilitates a flexible, student-centric approach to education, allowing institutions to offer a variety of courses. It enables students to choose their educational path and helps manage course catalogs, credit requirements, and grading criteria.

02

Accreditation System

Clocktos ERP's Accreditation module streamlines the accreditation process for educational institutions. It provides a centralized platform to manage accreditation-related data, documents, and workflows. This module helps define and track accreditation criteria, ensuring compliance and generating reports for accreditation bodies.

03

The Controller of Examinations

The COE module in Clocktos ERP streamlines academic assessments and examinations. It manages exam scheduling, result processing, grading systems, and transcript generation. This module ensures accuracy, security, and efficiency in handling examination data while reducing administrative workload.

04

Relative Grading

Clocktos ERP's Relative Grading module enhances the assessment process by implementing a system where students' performance is evaluated in comparison to their peers. Instructors can assign grades based on score distribution, ensuring fairness and consistency in grading.
