ACADEMIC COLLABORATIONS

Christian College of Engineering and Technology (CCET) promotes meaningful academic collaborations with reputed universities, higher educational institutions, industries, research organizations, and professional bodies to enhance the quality of education and provide wider learning opportunities for students and faculty.

CCET has signed 52 Memorandum of Understanding (MoUs) documents with industries to make partnership with them to provide practical exposure and hands-on-training to our students through internships, placement, industrial visit etc. These collaborations also facilitate knowledge sharing, academic interaction, research and innovation, skill development, faculty development, and curriculum enrichment.

Key Areas of Collaboration

- Industry–Academia Interaction
- Faculty Development Programs
- Student Internships and Industrial Training
- Guest Lectures and Expert Talks
- Workshops, Seminars and Technical Events
- Joint Research and Innovation Activities
- Collaborative Projects and Publications
- Skill Development and Value-Added Courses
- Industrial Visits and Experiential Learning
- Academic and Professional Knowledge Sharing

Through these collaborative initiatives, CCET provides students with opportunities to interact with academicians, industry experts, researchers, and professionals, enabling them to gain practical knowledge and stay updated with emerging technologies and professional practices. The institution continuously strives to develop strong and mutually beneficial academic partnerships that contribute to academic excellence, research advancement, innovation, employability, and the overall development of students and faculty members.

"Collaborating today with industry pioneers to shape the innovators, technocrats, and engineering leaders of tomorrow."
