

Post-Training Assessment (After Training)

Objective:

- To measure improvement after structured training.

Assessment Components:

- Full-Length Aptitude Mock Test
- Technical Subject Assessment
- Coding Evaluation Test
- Group Discussion Performance Review
- Final HR Mock Interview Evaluation

Outcome:

- Comparative analysis with Pre-Test scores.
- Individual Performance Report generated for each student.

Monitoring and Continuous Feedback System

- Weekly performance tracking will be maintained.
- Attendance and participation will be closely monitored.
- Individual counseling will be provided for weak students.
- Special focus batches will be conducted for slow learners.
- Monthly progress reports will be submitted to the Management.

A systematic Pre-Test → Training → Post-Test model ensures measurable improvement in student performance and strengthens overall placement outcomes.
